

Dear business friends,

you have just received the new edition of our bathroom equipment catalogue for professionals.

As has become the rule, the catalogue contains not only a wide range of traditional and time-tested products, but also new products from the world of bathroom design.

I wish you many satisfied customers and look forward to our further cooperation.

*Sincerely
Jiří Ježek
Owner and CEO*

A handwritten signature in blue ink, consisting of stylized, overlapping strokes that form the letters 'J' and 'J'.

SAPHO + LOREMA - Headquarters in Libeznice

POLYSAN - Production Facilities in Nesměřice

WHO WE ARE

UBC s.r.o. is a manufacturing and distribution group in the field of bathroom equipment with a 32-year tradition. It currently has over 180 employees and operates its own production and warehouse facilities covering an area of more than 30,000 m². Our products are used by customers in the Czech Republic as well as in other European countries.

SAPHO – a brand offering a complete range of bathroom products in mid to high price range since 1991. Production of designer bathroom furniture.
www.sapho.cz

BRUCKNER - a brand of sanitary products focused on plumbers. 32 years of experience, progress and solutions are applied in products that are easy to install.
www.bruckner-sanitary.com

AQUALINE – a brand of bathroom equipment at affordable prices. The range includes products with an extremely favourable ratio of quality and price.
www.aqualine.cz

POLYSAN – production of acrylic bathtubs, whirlpool systems and shower enclosures since 1996
www.polysan.cz

LOREMA – production of hydrotherapy systems and a complete supply of spa equipment for public areas since 1995.
www.lorema-wellness.cz

We also represent the following brands:

sanitary ceramics

sanitary ceramics

sanitary ceramics

bathroom accessories

SAPHO - Warehouse in Příbram

SAPHO - Production Facilities in Zdiby

WHAT WE OFFER

PRODUCT RANGE

- a wide and comprehensive range of bathroom equipment including wall and floor tiles
- products from our own production and more than 200 suppliers
- custom design from our own development center under the SAPHO brand
- product exclusivity

MARKETING

- catalogues with a comprehensive product offer for end users
- product samples and marketing materials (display stands, swatches, promotional items)
- media advertising aimed at our dealers
- 3D product models for graphic design
- support for your business development plans in your region
- a graphic and photo studio for your own presentation
- regular trainings including presentation of the latest innovations and new products
- possibility for your clients to use our showrooms

B2B - Electronic Information System

- a convenient online ordering system
- bulk ordering from the customer's system
- current stock availability
- current retail and wholesale prices
- list of orders placed and invoices received
- list of undelivered items with delivery dates
- technical drawings and manuals for a direct download
- overview of achieved turnovers
- 24/7 access to all necessary information
- parametric product search
- quotes for your clients
- bulk packaging - selected products with special prices
- direct connection of your online shop with our system

WARRANTY

- superior warranties for our products of up to 10 years
- on-line tracking of complaints status

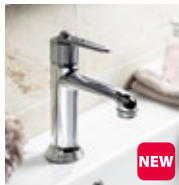

LOGISTICS

- our own logistics center
- sufficient stock of products for a continuous supply

COMMUNICATION

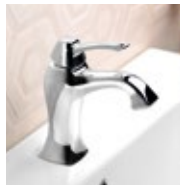

- each registered business partner is always supervised by a sales representative. If we are not currently available by phone, we always call you back.
- we answer your e-mails as soon as possible
- consultation in solving your orders and projects

Chromotherapy

It belongs to the methods of alternative medicine. Light and colours affect us extensively, they influence our moods, feelings, energies. The source of the colour spectrum illuminates the water with diodes. Chromotherapy was already known to the ancient Chinese, Egyptians and Greeks, they used it for positive effects in various health problems, as they believed that every human organ is associated with a certain colour.

CEILING MOUNTED SHOWER HEADS

A

CH7338A*

Ceiling Mounted Shower Head with Chromotherapy
 Dimensions: 730x380 mm
 Functions: rainfall, 2x waterfall
 LED Lights - 8 colors
 Remote „A“ for the choice of colors
 must be installed with a 2-way concealed tap

B

CH5540B*

Ceiling Mounted Shower Head with Chromotherapy
 Dimensions: 550x400 mm
 Functions: rainfall, waterfall
 4x LED Light in the centre of the shower head - 8 colors
 Wall-Mounted Remote „B“ for the choice of colors
 must be installed with a 2-way concealed tap

B

CH3232B*

Ceiling Mounted Shower Head with Chromotherapy
 Dimensions: 320x320 mm
 Functions: rainfall
 4x LED Light in the centre of the shower head - 8 colors
 Wall-Mounted Remote „B“ for the choice of colors
 must be installed with a 2-way concealed tap

C

CH5540C*

Ceiling Mounted Shower Head with Chromotherapy
 Dimensions: 550x400 mm
 Functions: rainfall, waterfall
 4x LED Light in the centre of the shower head - 8 colors
 Wall-Mounted Remote „C“ for the choice of colors
 Rainfall/Waterfall Diverter
 must be installed with a 2-way concealed tap

A

CH3030A*

Ceiling Mounted Shower Head with Chromotherapy
 Dimensions: 300x300 mm
 Functions: rainfall
 2x LED Light on the sides of the shower head - 8 colors
 Remote „A“ for the choice of colors
 must be installed with a 2-way concealed tap

MS343

Ceiling Mounted Shower Head
 Dimensions: 700x380 mm
 Functions: rainfall, 2x waterfall
 must be installed with a 2-way concealed tap

Meanings of Colours in Chromotherapy:

	White:	Regenerative, increases vitality and energy
	Turquoise :	Soothing, relieves tension and restores freshness
	Violet:	Relaxing, helps with insomnia and nervous system problems
	Blue:	Purifying, anti-stress and anti-anxiety
	Green:	Relaxing, promotes contemplation and tranquility
	Yellow:	Stimulating, favours concentration and self-confidence
	Orange:	Relaxing, promotes optimism and relieves tension
	Red:	Stimulating, exciting, anti-depression and immune deficiencies
	Magenta:	Energetic, gives strength and temperament

* The head showers include a transformer.
 Material: Stainless Steel.

DUAL GLAZE+

Dual Glaze, or Dual Glaze+, is a special finish used on colored toilets equipped with SWIRLFLUSH Technology[®]. Dual Glaze+ combines hygiene and elegance. The cleanliness of the matte exterior surface meets the Extraglaze[®] antibacterial glaze on the interior parts of the toilets, which are in contact with water, preventing stains and unsanitary limescale deposits.

i Toilet pans in Dual Matt finish have a matt glaze on the outside and a glossy glaze inside the bowl for an easier cleaning. The toilets are equipped with SWIRLFLUSH® flushing system and SAVE WATER system, which allows for flushing only 4.5 litres of water. The Towel Rail can be installed additionally after installing the basin. Available basin wastes can be found on p. 506.

Dimensions: W x (H) x D

GSI[®]
Italian Made

SWIRLFLUSH Technology[®]

Toilets without the traditional rinse circle. The patented flushing system directs water in a uniform direction to the edges of the ceramic.

An innovation in flushing is the water vortex, which ensures optimal and silent flushing of the bowl.

WALL HUNG TOILETS & BIDETS

SWIRLFLUSH® Technology

Smooth ceramic surface without creases and cavities. When flushing, water flows only from the water distributor at the back of the toilet bowl and rinses the entire interior of the bowl in a circular motion. Bacteria and dirt have no room to settle. Cleaning the bowl is quick and easy.

RIMLESS Technology

Toilet bowl without flush circle. The rinsing water only flows out of the back of the toilet bowl and thanks to the special shape of the ceramic it perfectly rinses the interior space. Maintenance of the toilet bowl without folds is very simple.

EASY TAKE & QUICK RELEASE System

The toilet seat can be easily removed from the hinges at the touch of a button to make toilet maintenance easier.

CleanWash Technology

CleanWash technology (integrated hygiene) ensures a convenient use thanks to the bidet nozzle integrated into the toilet bowl. It provides a comfortable intimate hygiene using hot or cold water. The integrated bidet nozzle system increases the comfort of hygiene when using the toilet. The control mixer or valve can be placed on the wall or is available installed directly on the toilet bowl.

Electronic bidets offer all the functions of a shower, including pulse rinsing and oscillating nozzle movement. Individual adjustment of the nozzle position, water pressure and temperature, hot air drying, heated seat, automatic nozzle cleaning, etc. are all a must. Extra features include automatic LED lighting, which you will appreciate especially at night, and a super energy-saving mode that saves electricity.

i All heating elements have a G1/2" thread, operating voltage 230 V. The power of the heating element should not exceed the heating capacity of the radiator. The thermostats in the heating elements do not have a room thermostat, but regulate the temperature of the liquid in the radiator.

HEATING MATS AND CABLES

- minimum mounting height 3-5 mm
- mounting directly under the floor covering in flexible adhesive
- suitable for any surface, can also be used on existing tiles during reconstruction
- faster heating start-up than conventional systems
- easy and quick installation during tiling
- can be used as a year-round or supplementary heating system
- possibility of heating selected areas or entire surfaces
- easy control via wall-mounted Thermostat (floor temperature and switching time setting)
- the product is manufactured in the Czech Republic and is covered by a 10-year warranty

WARM TILES Heating Cable

Specifications:

- Supply voltage: 230 V/50 Hz
- Specific output: 10 W/m
- Cable Type: two-core cable with protective braid for wet areas
- Cable diameter: 3–5 mm
- Length of cold lead cable: 3 m
- Loop centers: 6–8 cm

	Heated area	Output	Cable length
WTC12	0,9–1,5 m ²	200 W	18,9 m
WTC20	2,0–2,5 m ²	320 W	31,6 m
WTC29	2,8–3,5 m ²	450 W	45,9 m
WTC40	3,8–4,6 m ²	600 W	63,9 m
WTC48	4,7–5,8 m ²	750 W	75,8 m
WTC83	8,1–10 m ²	1300 W	131,3 m

The length of the heating cable cannot be adjusted.

Whirlpool System **INFINITY**

infinity
system

The MONOLITH Infinity system was designed exclusively for MONOLITH acrylic bathtubs due to the specific placement of components and limited space under the bathtub. The completely new type of directionally adjustable water jets, combined with an increased number of air jets, makes bathing in the MONOLITH bathtub a unique experience. The minimalist electronic control ensures that the full potential of the designed system is exploited.

HYDRO SYSTEM

SLIM ACRYLIC BATHS

SLIM baths have a rim height of only 18 mm compared to standard baths, which gives them a much more elegant and aesthetic impression. By lowering the rim, the bathtub gains a minimalist and clean look and literally disappears into the installed surround. These baths can only be installed with a wall surround, they cannot be combined with a cladding panel.

Fixed Screen, Suitable for traditional baths. Fixed + Pivot Screen, Suitable for Mamba baths, Tandem, Tanya and Evia.

POLYSAN WHIRLPOOL SYSTEMS

The entire range of Polysan baths (except freestanding baths) is offered with the option of installing a whirlpool system. There are 5 types of systems with a choice of 4 types of control. The bath tub is delivered including support frame and waste set. To calculate the final price of the whirlpool bath, it is necessary to add the price of the selected bath to the prices of the whirlpool system.

TURBO AIR

The TURBO AIR bubble system massages the body with preheated compressed air that flows from the bottom of the tub through small holes. Features: 30-50 air channels at the bottom of the tub, choice of 4 types of control.

HYDRO POOL

The HYDRO POOL whirlpool system is based on the principle of water circulation. The body is massaged with water mixed with air, which flows from jets located on the side of the tub. Equipment: MICRO SLIM jets 8+4+2 pcs (8 on the sides, 4 on the back and 2 on the feet) or for symmetrical baths 8+4+4 pcs (8 on the sides, 4+4 on the back), choice of 4 types of control.

HYDRO LUX

Compared to the HYDRO POOL system, the HYDRO LUX whirlpool system has 22 NANO jets on the back instead of 4 MICRO SLIM jets. Equipment: 8+2 MICRO SLIM jets (8 on the sides, 2 on the feet) and 22 NANO jets (on the back) or for symmetrical tubs MICRO SLIM 8 on the sides and 22+22 NANO jets (on the back), choice of 4 types of control.

KOMBI POOL

The KOMBI whirlpool and bubble system uses the advantages of the HYDRO POOL and TURBO AIR systems. Equipment: MICRO SLIM jets 8+4+2 pcs (8 on the sides, 4 on the back and 2 on the feet) or for symmetrical tubs 8+4+4 pcs (8 on the sides, 4+4 on the back), 30-50 air channels on the bottom of the tub, choice of 4 types of control.

KOMBI LUX

The KOMBI LUX whirlpool and bubble system uses the advantages of the HYDRO LUX and TURBO AIR systems. Equipment: 8+2 MICRO SLIM jets (8 on the sides, 2 on the feet) and 22 NANO jets (on the back) or for symmetrical tubs 8 on the sides and 22+22 NANO jets (on the back), 30-50 air channels on the bottom of the tub, choice of 4 types of control.

It is necessary to add the price of the selected type of bath to the prices of the whirlpool system.

Optional accessories for whirlpool systems:

- 91401** CHROMO SLIM Color Chromotherapy RGB LED (1 Light Source)
- 91405** CHROMO PLANE Spot Color Chromotherapy RGB LED
16 light sources recessed into the bathtub wall
- 91407** RGB LED Spot Color Chromotherapy
8 light sources recessed into the bathtub wall
- 91406** Extra charge for installing lighting in a bath without whirlpool system

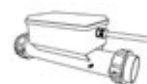

93000
Disinfectant for whirlpool baths, 1 l

894
Surcharge for overflow filling for whirlpool systems

91403
StreamClean Pipe Disinfection Flush

124055
Bath temperature heating with safety thermostat

Whirlpool Baths

- 12 directionally adjustable water jets with air suction
- 10 air jets (for the HYDRO-AIR system only)
- very thin jets made of chrome-plated brass
- illuminated safety control
- powerful and quiet 750 W pump
- quiet compressor with automatic drying 400 W
- sloped pipes for easy drainage
- supporting steel frame
- easy installation (like traditional bathtubs + electric supply)
- Power: 230V/50Hz
- meets the EN198 standard

The panels are made of tempered safety glass in accordance with EN ČSN 14428. The screens are delivered pre-assembled (the glass is set into aluminium profiles).

The double bearing rollers are concealed in a square case. The wall profile is finished with chrome top caps. The sliding doors are made of 8 mm glass, which increases stability and prevents vibrations.

Easy maintenance - simply push the bottom runners to swing the door inwards.

The Guiding Rail features a soft-close mechanism with a clamping function that ensures a convenient closing of the door. The mechanism was tested for 60,000 cycles..

The Wall Profiles enable an easy installation of glass without the need for drilling.

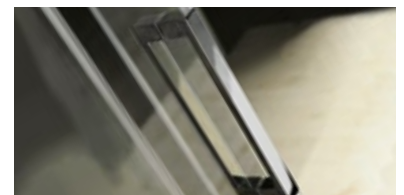

The Water Stopper prevents water from leaking into the bathroom area. The screens can be installed directly on the floor without a shower tray, enabling wheelchair access.

The Rail Fixing in the glass of the side panel with an elegant end cap.

The Wheel Cover matches the design of the entire shower enclosure.

The Square Door Handle enhances the clean look of the enclosures.

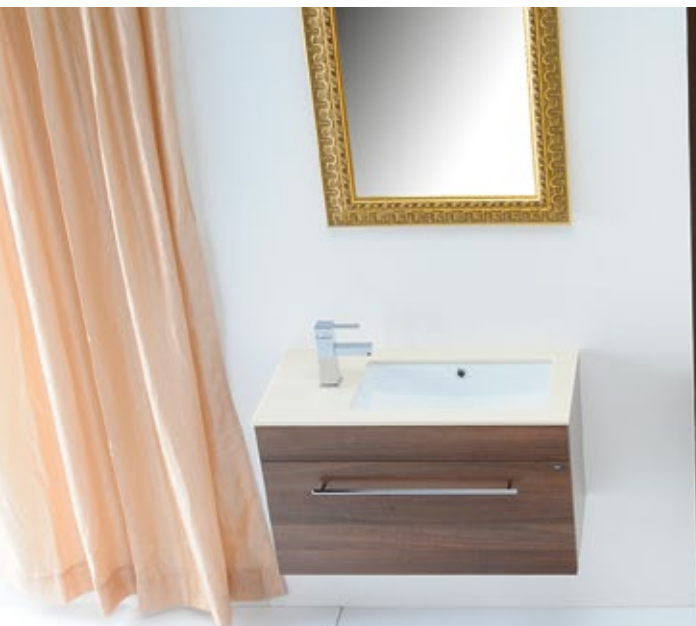

i The above prices do not include shower tray. We recommend the shower trays on p. 495.
Sizes are given in mm.

The glass is already coated with a chemical layer during production, which prevents limescale build-up and facilitates cleaning.

It consists of a mixture of polymers, chemically bonded to the silicate groups in the glass, which fill the micropores in the glass and form a continuous water-repellent film. Water droplets aggregate on contact with the film and run off the glass surface.

i The prices of Polysan cast marble shower trays apply for white version without support legs.. Support bases and tileable panels for the shower trays can be found at www.sapho.cz. The Mirai shower trays are designed for installation in tiles. The grooves on the underside allow the tray to be glued directly to the floor. Thanks to the low height of 18 mm, the tiles can easily be glued in the same level as the shower tray. The raised rim of the tray allows a smooth connection to the tiling. Water from the wall flows directly into the tray.

i When installing shower trays, it is necessary to leave a gap between the tray and the tiles, which must be filled with a flexible sealant (silicone). The tray must not be completely fixed due to possible movements of the construction. This procedure can prevent possible damage. The size tolerance for sanitary ware is $\pm 1\%$.

ESSEFLOW

SLIM RIVER

SLIM SPRING BLACK

Shower Channels **ESSEFLOW, SLIM RIVER, SLIM SPRING**

ESSEFLOW Shower Channel with Grate, Height 80 mm

	Total Length	Grate Length
6963.101.8	380	310
6963.901.8	780	710
6963.201.8	880	810
6963.301.8	980	910
6963.401.8	1080	1010

The grates of ESSEFLOW channels have a total width of 60 mm and an internal width of only 49 mm, a unique shape and a perfectly smooth surface.

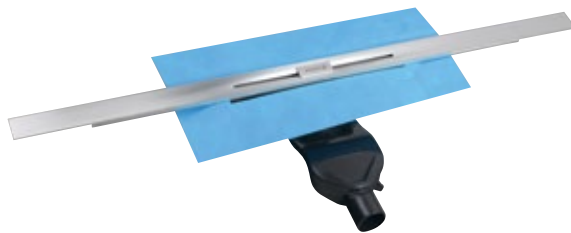

Specifications

channel material: ground stainless steel
 grate material: ground stainless steel
 waste diameter DN50, removable trap with grid
 full access to the waste pipeline
 flow rate 46 l/min according to EN1253
 waterproofing flange, adjustable feet
 internal slope of the channel
 adjustable grate height 10–20 mm
 waterproofing foil included
 min. installation height 80 mm, Grate width 49 mm

Versatile Rost

instead of stainless steel cover, tiles can be inserted

SLIM RIVER Shower Channel with Stainless Steel Grate, min. Height 85 mm

	Length (mm)
RV100	400–1000

Shortenable to a minimum length of 400 mm.

Specifications

grate material: brushed stainless steel
 waste diameter DN50
 flow rate 42 l/min according to EN1253
 adjustable feet
 waterproofing foil included
 min. installation height 75 mm
 grate width 45 mm
 S-type trap with waterproof odour stopper

Grate width only 45 mm

SLIM SPRING Stainless Steel Shower Channel with Stainless Steel Grate, min. Height 82 mm

	Length (mm)
SV120 Stainless Steel	250–1200
SV120B Black	250–1200

Shortenable to a minimum length of 250 mm.

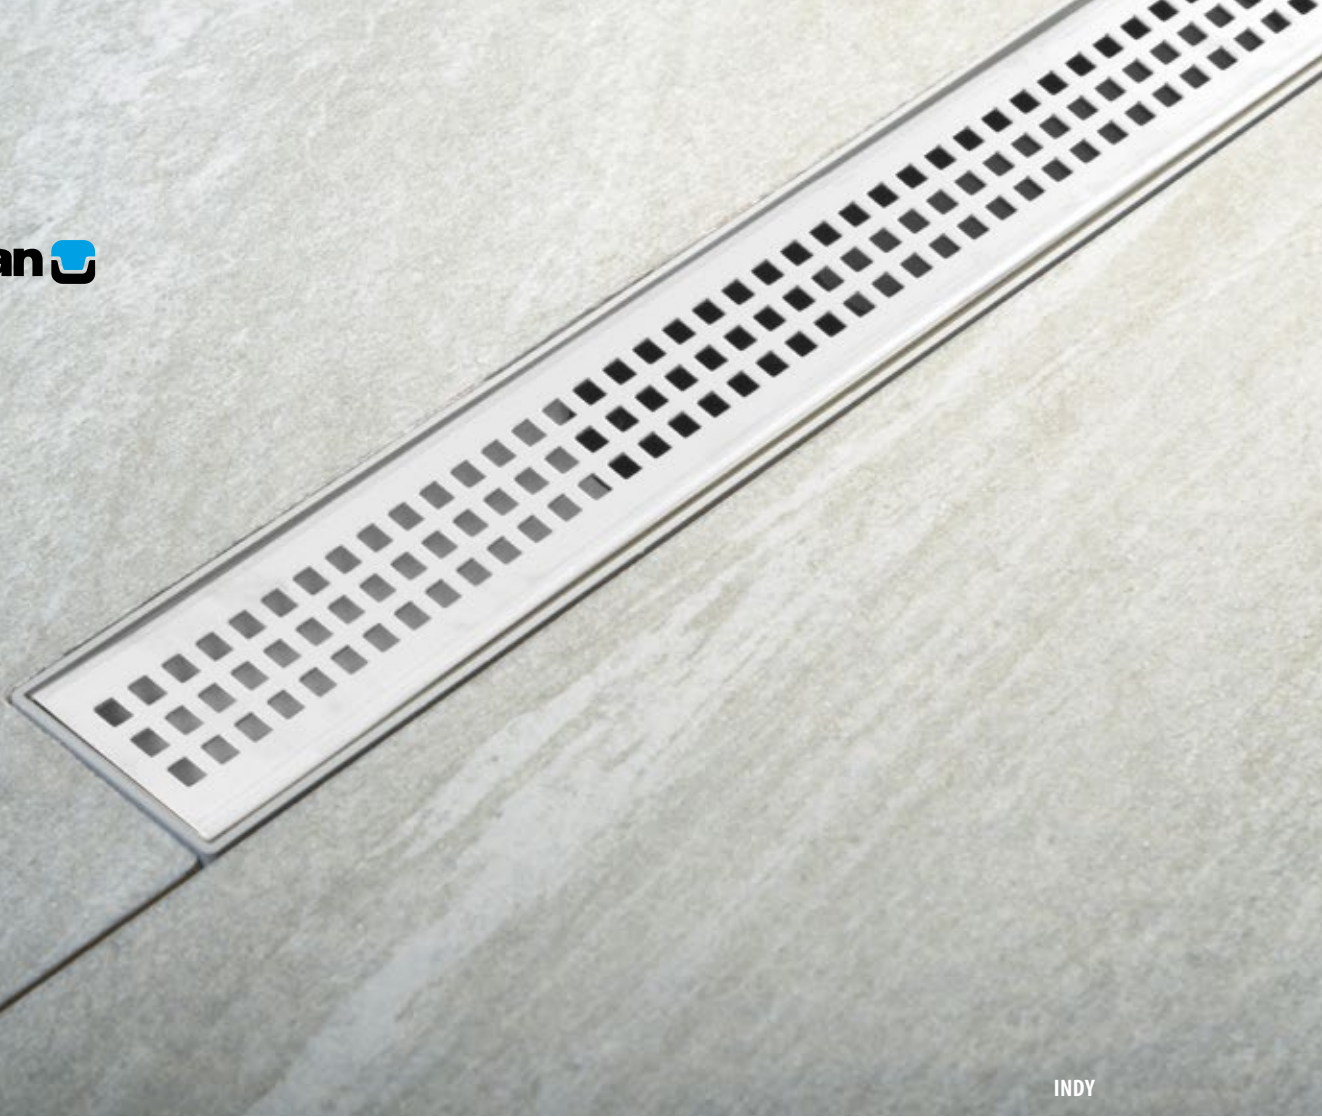

Specifications

channel material: ground stainless steel
 grate material: brushed Stainless Steel
 waste diameter DN50
 flow rate 42 l/min according to EN1253
 adjustable feet
 waterproofing foil included
 min. installation height 65 mm
 grate width 24 mm

slatted grate only 24 mm

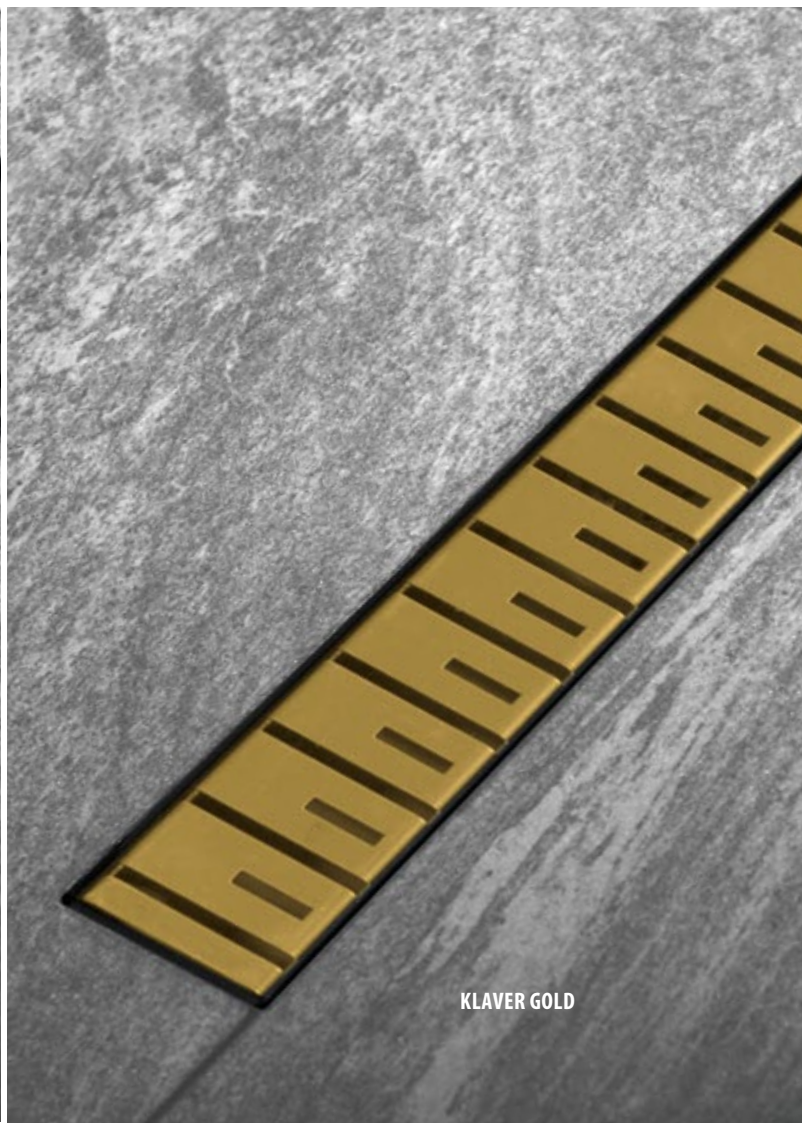

Sizes are given in mm.

GMP88	1250	1190

Easy Maintenance

The effective anti-odor cap is made of stainless steel with a sealing O-ring. This design eliminates the risk of leak loss or failure, and can be easily disassembled and cleaned.

Low Installation Height

Only 55 mm from the horizontal flange of the channel to the bottom of the siphon while maintaining a high flow rate, especially practical for bathroom renovations.

Water Softener IPS Kalyxx

RedLine - The device is designed for hot water treatment and special protection of boilers, and instantaneous heaters.

IPSKXRG34 G 3/4"

BlueLine Antibacterial - This drinking water treatment device reduces limescale and corrosion. Thanks to the silver-plated electrodes, it has an antibacterial effect. IPS removes odours, improves the taste of water and prolongs freshness. The water is suitable for long-term drinking.

General Information

This price list enters into force on April 1st 2023 and cancels all previous price lists.

Every care has been taken in the preparation of this catalogue, but some changes may not be indicated and may occur during the life of this catalogue. There may be changes to the product range, prices or delivery dates. The design and technical specifications of products are continually being refined and changed for the sake of improvement. Up-to-date information must be verified in the B2B system. This information takes precedence over the information in the printed catalogue!

UBC reserves the right to make changes without notice and disclaims all liability for damages that may arise from omissions and errors of a technical or typographical nature.

UBC warrants its products against defects to the following extent:

Taps and valves SAPHO - 6 years for tightness, 2 years for finish and other parts (switches, thermostatic cartridges)

Taps from this catalogue will be guaranteed for the duration of the warranty period free service at the place where the product is installed. After-warranty service can also be provided on-site at the place of installation for an extra fee.

SAPHO bathroom accessories - 10 years warranty on the finish (2 years on pumps and toilet brushes)

POLYSAN acrylic baths - 10 years

GELCO shower enclosures and trays - 3 years

Electric underfloor heating - WARM TILES - 10 years

3D models and technical drawings of our products are available to designers and architects for architectural designs and perfect visualization of the proposed bathroom. 3D models can be viewed and downloaded for the specific product at www.sapho.cz.

Explanatory notes:

 Novelty	 Electric heating	 White LED Light
 Product information	 Central heating	 Color LED Light
 Designer product	 Dual fuel heating	 Vertical or horizontal installation
 Made of stainless steel	 Thermostatic head	 Mirror with anti-corrosion protection
 Made of brass	 Proximity control	 Also available in other colors
 Made of aluminium	 Smart features	 Also available in other wood finishes
 Customized production option	 Opening and closing by pressing	 Installation without drilling
 Extended warranty (6 years)	 Water opening/closing by turning 90°	 Anti-fingerprint surface treatment
 Silent and smooth closing	 Water and air mixing system	
 Perfect toilet flushing, easy maintenance and cleaning	 HiTech Therm - protection against burns (hot water does not heat the tap body)	
 Easy removal of the toilet seat	 Resistance to limescale build-up	
 Bidet spray integrated into the toilet bowl
